

## **Tokio Marine Holdings Earns Highest “Supplier Engagement Rating” 2023 by CDP**

Tokio Marine Holdings, Inc. (President and Group CEO: Satoru Komiya, “TMHD”) is pleased to announce that it has been recognized as a Supplier Engagement Leader, the highest rating in the 2023 Supplier Engagement Rating (SER) by CDP<sup>※1</sup>, an international environmental non-profit organization.

The Supplier Engagement Rating (SER) assesses how effectively companies are working with suppliers to address climate change issues. The companies receiving the highest rating are recognized as Supplier Engagement Leaders.

In 2023, the top 2% of respondents (Global: 458 companies, Japan: 109 companies) were selected as Supplier Engagement Leaders. TMHD was highly evaluated for its efforts to reduce greenhouse gas (GHG) emissions in collaboration with our suppliers, receiving the highest ratings from CDP in all SER categories<sup>※2</sup>.

Tokio Marine Group has positioned addressing climate change as one of our key strategic global issues and has been one of our focus issues for a long time.

In order to achieve net zero GHG emissions by 2050, TMHD announced the interim target for 2030 on customer engagement<sup>※3</sup> in September 2023 to support customers in their decarbonization transition.

Tokio Marine Group will continue to promote climate change action throughout the value chain with our stakeholders and contribute to realize a safe, secure, and sustainable future.

※1 CDP: An international environmental not-for profit charity (headquartered in London) that has a system for environmental information disclosure. Its main activities include requesting companies and local governments to disclose information on climate change measures and promoting climate change measures. ([www.cdp.net](http://www.cdp.net))
